

The University of Vermont

2 March 2021

Jeanne M. Harris
Professor, Department of Plant Biology
63 Carrigan Drive, Jeffords Hall
University of Vermont
Burlington, VT 05405 USA

Dear Professor:

I am writing to brief you of my progress with the Blueberry Project. The First and second batch of samples in the year 2018 have been sequenced and OTU tables generated using PIPITS. I am currently using the Microbiome Explorer application to study the diversity within and between the samples.

However, i still have 2 years worth of samples to analyze but i am optimistic that i could complete the Lab work by the end of Fall 2021. I am grateful for the opportunity to be a part of this project and learn new skills. Thanks for your continuos support

Sincerely yours,

Sandra Nnadi
